

## City of Orland Section 21130b Disclosure Report

May 4, 2026

Pursuant to Elections Code Section 21130 subdivision (b), this memo shall serve as the City of Orland's disclosure reports.

### **Section 21130(b)(1) provides:**

Consistent with the districting body's existing obligations under the federal Voting Rights Act, the districting body shall determine whether it is possible to create an election district or districts in which a minority group is sufficiently large and geographically compact to constitute a majority in a single-member district, as set forth in *Thornburg v. Gingles*, 478 U.S. 30 (1986), and as interpreted in case law regarding enforcement of the federal Voting Rights Act with respect to redistricting. The districting body shall publish on its redistricting web page, at a minimum, the results of its analysis within seven days of completing the analysis or prior to adopting election district boundaries, whichever occurs first.

National Demographics Corporation (NDC), on behalf of the City of Orland, has analyzed the City's demographics and determined that it is possible to create an election district in which Latinos are a sufficiently large and geographically compact population of Citizens of Voting Age Population (CVAP) to constitute a majority of CVAP, as set forth in *Thornburg v. Gingles*, 478 U.S. 30 (1986), and as interpreted in case law regarding enforcement of the federal Voting Rights Act with respect to redistricting. NDC has determined it is not possible to create an election district in which African-Americans, Native Americans, or Asian-Americans are a sufficiently large and geographically compact population of Citizens of Voting Age Population (CVAP) to constitute a majority of CVAP.

The presentation at each of the first two Council hearings in this process includes maps showing the Latino shares of Citizen Voting Age Population across the City. NDC's analysis found there is a contiguous district possible that meets the requirements of the Fair Maps Act and includes a majority of CVAP who are Latino.
